[EPAFIFRASAPPetitionLetter-12-16-2016.pdf](#)

Steve: Looks like a Glyphosate comment received today (after the meeting) misdirected to me, for some unknown reason. Looks like they unloaded their entire membership database into the protest letter. Oh well,...

Thanks, Jim

Subject: Re: FIFRA SAP on glyphosate carcinogenicity

Dear Administrator McCarthy and Mr. Downing,

Attached is a letter, with signatures and additional comments from more than 11,783 concerned individuals, calling on the agency to follow independent science while reviewing the carcinogenicity of glyphosate.

Thank you for your careful attention.

Sara Knight, on behalf of Pesticide Action Network
